Ecology is entering into a legal agreement called an Agreed Order with Reserve Silica Corporation and Holcim (US) Inc. These Potentially Liable Parties (PLPs) are responsible for cleaning up contamination at the Reserve Silica Site.

The site is generally located at 28130 Black Diamond—Ravensdale Road, Ravensdale WA 98051.

We'd like your input on the following documents:

- **Agreed Order** – requires the PLPs to further investigate contamination and develop a cleanup plan.
- **Public Participation Plan** – describes how Ecology will inform the community about site activities and opportunities to be involved in the cleanup process.

These documents will be available for review by November 5th at Ecology's Northwest Regional Office, the Maple Valley Public Library, and <https://fortress.wa.gov/ecy/gsp/Sitepage.aspx?csid=4728>. For more information, contact Madeline Wall at 425-649-7015 or Madeline.Wall@ecy.wa.gov.
